PROFILE

Creative and detail-oriented Frontend Developer skilled in HTML, CSS, JavaScript, and modern frameworks like React. Experienced in building responsive, user-friendly interfaces and collaborating with cross-functional teams. Passionate about clean code, performance optimization, and delivering seamless user experiences. Eager to contribute to innovative and dynamic development projects.

PROJECT

LineMan
HTML , CSS , Taliwind , React.js , React-router-dom

GitHub   Live Link

- Developed a React-based web application using Vite for efficient bundling and hot module replacement, ensuring rapid development and seamless user experience.
- Focused on creating a modular and reusable component architecture to improve scalability and development efficiency.
- Structured the project with a clear separation of concerns, organizing components and assets for scalability and maintainability.

Newspaper
HTML , CSS , Taliwind , React.js , React-router-dom

GitHub   Live Link

- Built a modern news web app using React and Vite, delivering fast load times and a responsive user interface across devices.
- Integrated dynamic routing and component-based design for seamless navigation and better code organization.
- Applied a clean folder structure and maintainable coding practices to support future scalability and team collaboration.
